SWISS DESIGN

Our collection of sewing machines

The suitable sewing machine for any creative idea

Swiss Design and excellence by your side

A symbol of innovation and high standards of service, the **elna** brand is recognized for the unrivalled quality of its products and the elegant design of its machines.

Our range includes a wide selection of sewing, embroidery and overlock machines. From basic mechanical up to fully automatic high-tech models, **elna** sewing machines can adapt to all sewing levels and meet even the most individual needs. Among our top-of-the-range models, you will also find machines combining extensive sewing features with the embroidery of the most complex patterns.

From creative sewing to tailoring, from embroidery to patchwork and even quilting, use this brochure to choose the machine that will allow you to achieve your dream projects.

the eXplore range Choosing the right team-mate

eXplore 150-160

These mechanical sewing machines offer a selection of different stitches and technical features that are ideal for beginners. They will accompany you every step of the way, way and become your most faithful companions.

eXplore 220-240 and eXplore 320-340

Discover the world of sewing with these robust models. You can use a variety of decorative and utilitarian stitches and create your own style while improving your sewing skills.

Sew Series

Available in a variety of appealing designs, the Sew machines feature a selection of simple stitches and include all the necessary functions for seamless and confident sewing.

Sew 75

Inspired by Swiss tradition, the Sew 75 is a limited edition to celebrate the 75th anniversary of the elna brand.

the elna 3210 and the elnaStar The specials

elna 3210 designed for jeans

A pair of jeans is a must in today's wardrobe. Particularly powerful, the elna 3210 is a mechanical machine that will easily sew several layers of denim fabric offering endless variety to this basic feature.

elnaStar

A small-sized, lightweight and silent machine. It is the perfect electronic model to take up sewing in a simple and practical manner.

the eXperience range Unique efficiency

eXperience 520-540 and eXperience 580

The electronic sewing machines of the eXperience range offer high-level features for a standard model, making all sewing steps extremely simple and intuitive.

These models are very easy to use. They are fast and responsive. Their multiple functions will allow you to create your own wardrobe as well as interior design projects.

Elna innovation and design

Tradition and progress since 1940

From the Elna No.1, the very first sewing machine created in 1940, up to our current range, **elna** has always been a pioneer in innovation consistently aiming to meet the needs of our users. By integrating automation and technological advances, **elna** continues to improve the performance of its products, while simplifying their use in order to save you time and boost sewing efficiency.

The elna Lotus launched in 1968 is a perfect example of this vision. With its unique and still unrivalled design, this sewing machine offered a totally innovative concept: the all-in-one! That's why this model was selected to be part of the "Design" collection of the Museum of Modern Art in New York.

Elna's know-how never stops evolving, making it possible to meet and exceed our customers' expectations and to offer them everlasting sewing pleasure.

elna lotus

The return of a legend

Lightweight, compact and portable

The new elna Lotus is the ultimate all-in-one sewing machine. Thanks to its flaps, transportation is easy and safe. It even creates a spacious sewing table as soon as you open it. From the spool pin integrated in the head of the machine to the automatic thread cutter, via the needle threader, the elna Lotus is always ready for use and you can take it with you anywhere straight away. Its exclusive compact design contributes to its functionality and practicality.

Easy use and everything at your fingertips: that's the Lotus spirit!

the eXcellence range

An ideal combination of high-level skills

eXcellence 680

As the first model in our eXcellence series, this sewing machine has a wide range of functions to assist you in the success of your projects. Its sturdy frame ensures exceptional efficiency in all circumstances.

eXcellence 720

This highly robust sewing machine comes with an all metal body and ensures great stability. Professional sewists will appreciate its flat bed, the integrated adjustable feeding and a spool stand for two industrial thread cones.

eXcellence 730PRO-760PRO and eXcellence 780

With their large sewing space and LED lighting, these computerized models offer exceptional comfort and will be your best allies when carrying out major projects. An adjustable stitch width of up to 9mm will give you endless possibilities. The virtuosos of sewing will appreciate the range of 350 stitches included in the eXcellence 780.

the eXpressive range

Magic at your fingertips

eXpressive 830

So intuitive, the eXpressive 830 embroidery machine will help you customize your projects with amazing ease.

The most complete embroidery machine: with its 160 embroidery patterns and three fonts, creativity has no limits. Hoops of different sizes offer enhanced flexibility for your projects.

Let your creativity run wild!

eXpressive 860, 900 and 920

Among these models you will find the sewing machine of your dreams! The eXpressive 860, 900 and 920 combine embroidery and sewing, offering you boundless possibilities. Their embroidery unit does not need to be removed in order to switch from one mode to another.

All technical features of these high-level models will expand your capabilities and deliver extreme stitching precision for both embroidery and sewing work.

embroidery software

Let your imagination run wild

Digitizer EX V5.0 and EX Junior V5.0 for eXpressive range

With our Digitizer embroidery software you will be able to create your own embroidery designs and simply let your eXpressive machine do the work so that your dreams become real in the blink of an eye!

You can easily save, transfer and download embroidery patterns using a USB stick.

Standard and optional accessories

Boost the possibilities of your sewing machine

The **elna** brand strongly believes that sewing machines are more than a technical tool: they are above all a faithful partner.

To help you get the most out of your sewing machine, **elna** has developed an array of accessories that are compatible with your model. These are specially designed to accomplish the task you wish to perform.

In addition to the standard accessories supplied with your machine, you can add optional accessories at any time to help you achieve your creative ideas while simplifying technical challenges!

the overlock machines

For professional finishes

Used ideally together with a traditional sewing machine, elna overlock machines are equally useful for finishing and assembling garments.

You will be able to sew with precision and tailor a garment from A to Z just like fashion professionals. Assembling hard-to-work synthetic materials becomes as easy as assembling stretchable, lightweight or thick materials.

elna 264

Ideal for the intermediate level sewist, the elna 264 is compact and functional with a choice of seven stitch programs.

elna 664 et 664PRO

In the blink of an eye, these easy-to-use overlockers allow you to neatly cut the edge of a fabric, as well as to hem and assemble it. In addition, the PRO version features a reference panel showing the required settings for the selected program.

elna 745 et 845

A wide range of programs is integrated into these two models. The elna 845 is equipped with a program for top cover hem, which forms a cover stitch on the face and on the reverse sides of the fabric. Thanks to the automatic tension adjustment, the elna 745 and 845 sergers are extremely easy to use.

the coverlock machine

Master coverhem stitches with ease

elna easycover

Equipped with perfect execution precision and the ability to handle all types of fabric, our easycover will surprise you with its ease of use. Its state-of-the-art engine offers exceptional sewing quality and unmatched user comfort.

Powerful and convenient, the easycover will adapt to all your needs, smoothly handling the transition from a fine elastic fabric to a thicker wool fabric!
